The Legislative Research Unit is the central general research agency for the General Assembly. A board of 12 legislators, appointed by the Joint Committee on Legislative Support Services, supervises its operations.

A staff of researchers handles inquiries from legislators, legislative committees, and partisan staff. The staff's areas of expertise include law generally, science and technology, taxation, education, local government, economics and fiscal affairs, and the political and social history of Illinois.

Federal Funds to State Agencies

FYs 2016–2018

Annual Report to the Illinois General Assembly
27TH EDITION

Publication No. 417

June 2018

Prepared by

Kathleen M. Hazelwood, Federal Aid Coordinator

Proofing

Tara Burke, Office Associate-Proofreader

The Legislative Research Unit compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FYs 2016-2018* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

Foreword

The *Illinois Compiled Statutes* require the Legislative Research Unit to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FYs 2016-2018*, the twenty-seventh edition of this report, is submitted by the Legislative Research Unit to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which state programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Legislative Research Unit that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

Alan R. Kroner
Executive Director

INTRODUCTION

The Legislative Research Unit, a bipartisan support services agency of the Illinois General Assembly, has a responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” (25 ILCS 130/4-2.1) In meeting this responsibility, the Legislative Research Unit records and tracks applications for, and awards of, federal grants to state agencies. In addition, the Legislative Research Unit conducts an annual survey designed to identify federal funds received by Illinois state agencies.

This *Federal Funds to State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by state agencies. It augments the information provided in the Legislative Research Unit’s weekly reports of federal fund transactions by listing federal aid awards on a state or federal fiscal year basis and including descriptive program information. Weekly reports are available on the Legislative Research Unit website. This report is designed to help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois state agencies, and of the levels at which those programs are funded.

The Legislative Research Unit is also required to report annually to the General Assembly on the adequacy of state agency participation in programs financed by federal aid and the nature of federal aid programs in which state agencies or local governments did not participate, and to make recommendations. (25 ILCS 130/4-2.1(c))

Adequacy of Participation in Federal Aid Programs

Each state agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the state. The Legislative Research Unit, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

Identification of New Federal Funds (Types and Nature of Programs Not Applied for)

The Legislative Research Unit works with the Illinois Federal Clearinghouse in the Governor’s office to identify and make information available on federal aid programs that may provide resources for state agencies and local governments. Extensive Clearinghouse information, including referrals to the Legislative Research Unit’s publications, such as *Grant Alerts*, is available on the Legislative Research Unit website. *Grant Alerts* is also published monthly and e-mailed to potential grant users throughout the state.

Recommendations

The Legislative Research Unit will make recommendations as deemed appropriate.

Overview

Illinois state agencies received federal funds from 338 programs in FY 2018, 1 of which is a program supported by American Recovery and Reinvestment Act of 2009 (ARRA) funds.

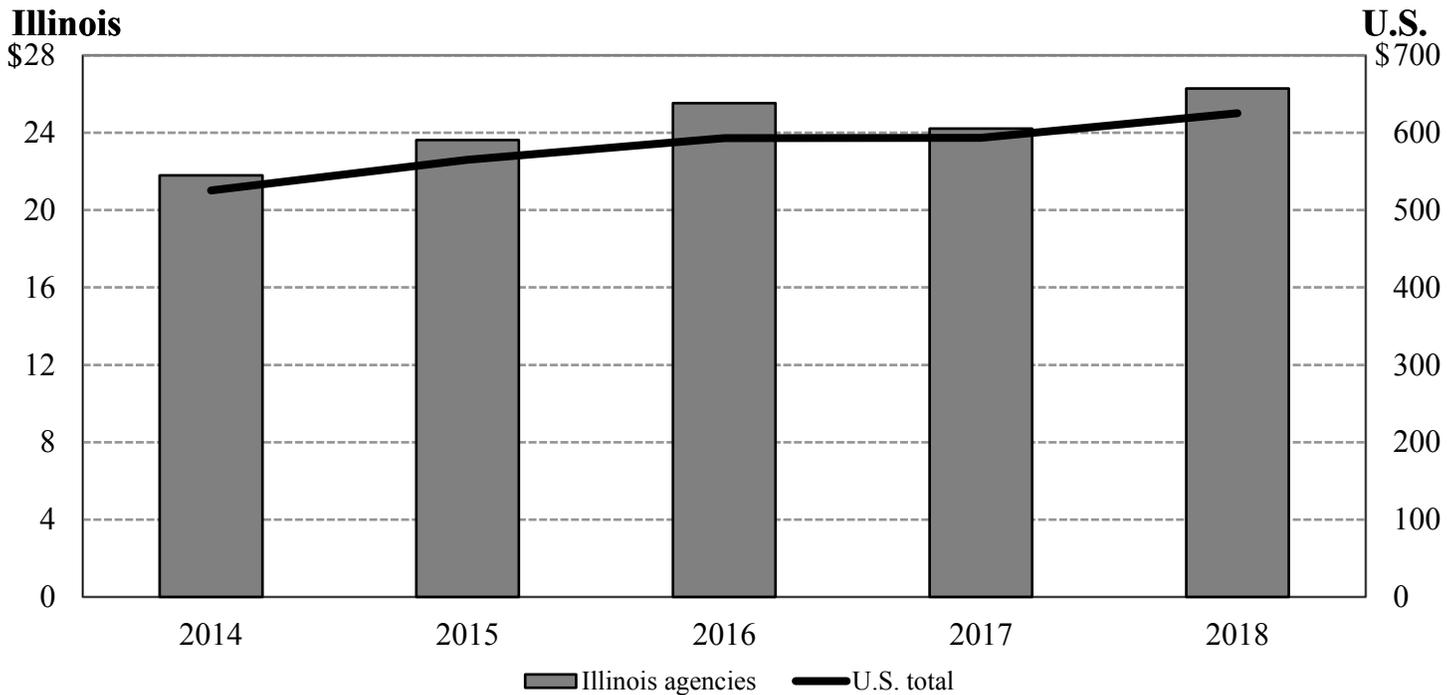

Table 1 and Figure 1 below show the total amounts of federal funds that Illinois agencies reported in each year from 2014 to 2017, and the combined estimate for 2018. They also show the total federal outlays (payments) for grants to state and local governments for the same years, as reported in the President’s federal fiscal year 2019 budget.

Figure 1: Federal Funds Received by Illinois State Agencies and Total Federal Grants to State and Local Governments, 2014-2018 (billions)

In FY 2018, awards received by state agencies are estimated to be about \$851 million above the FY 2017 awards. Program details are summarized in Appendix B.

Some of the major, increases in federal funds from FY 2017 to FY 2018 include the Department of Military Affairs’ Military Construction—National Guard, the Department of Healthcare and Family Services’ Child Support Enforcement, and the Department of Public Health’s Epidemiology and Laboratory Capacity for Infectious Diseases (ELC).

Programs with substantial reductions include the Department of Transportation’s Highway Planning and Construction, the Department of Public Health’s Behavioral Risk Factor Surveillance System, and the Department of Healthcare and Family Services’ Children’s Health Insurance Program.

Using This Handbook

The federal programs in this handbook were included if the federal funds were received directly from the federal government or a non-state agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the state agency for research or services). Programs in which a state agency received funds from another state agency (subgrants) have been excluded to avoid “double counting,” or falsely inflating the dollar totals. However, Appendix C on subgrants shows the flow of federal funds from some state agencies to others.

The Table of Contents lists the federal programs used by state agencies from FY 2016 through FY 2018. This table shows the location of the federal program descriptions, as well as which federal programs are used by each state agency. Tables showing federal aid award totals by state agency are appended. Each agency’s programs are listed by the numbers assigned by the U.S. Office of Management and Budget in its *Catalog of Federal Domestic Assistance* (CFDA). Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2016 and FY 2017, and estimated receipts in FY 2018.

This *Federal Funds to State Agencies* handbook contains two sections of state information to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the fund(s) used for depositing the federal grants, and tables show which state programs are supported and what areas and populations of Illinois are served by the federal grants. (See the example below.)

State Programs Supported	Pop. Served	Area
Economic Development	General	Statewide
Illinois State Resource Center	2,000,000	Statewide
Treatment Alternatives to Street Crime	4,080	Cook County

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (CFDA numbers). Each CFDA number identifies a federal program and the administering federal agency. In a few instances, in which federal programs are not listed in the *Catalog of Federal Domestic Assistance*, the LRU has assigned a unique identifying number. CFDA numbers are arranged in ascending order. The list on the following page shows the basic numbering scheme and the corresponding federal agencies. The program description and the formula descriptions come from the CFDA.gov website. This website is being updated to <https://beta.sam.gov>.

Information Sources

The basic sources for the fiscal data included in the *Federal Funds to State Agencies* report are the Legislative Research Unit's annual federal aid surveys, which have examined the use of federal funds by Illinois state agencies from FY 1973 until the present. The fiscal information is supplied directly by the state agencies, and it is assumed the figures are supplied in good faith and are substantially correct. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

SUPREME COURT

93.586 STATE COURT IMPROVEMENT PROGRAM

Program Description: The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements to, as well as the expansion of, successful court systems. It enables state courts to design assessments that identify barriers to timely and effective decision-making, highlight practices that are not fully successful, examine areas in need of correction or added attention, and implement reforms that address the state court's specific needs.

Formula Description: Each state court with an approved application is allotted \$85,000. The remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total budget cost is required by non-federal share or match. The same formula and match requirements apply to each of the three CIP grants.

16.543 MISSING CHILDREN'S ASSISTANCE

Program Description: The program provides grants to public agencies or private, nonprofit organizations for research, demonstration projects, or service programs designed to: (1) educate parents, children, and community agencies and organizations in ways to prevent the abduction and sexual exploitation of children; (2) provide information to assist in the location and return of missing children; (3) aid communities in the collection of materials that would be useful to parents in assisting others in the identification of missing children; (4) develop effective treatment for the psychological consequences to both parents and children of (a) the abduction of a child, both during the period of disappearance and after the child is recovered, and (b) the sexual exploitation of a missing child; (5) collect detailed data on the actual investigative practices used by law enforcement agencies in missing children's cases; (6) address the particular needs of missing children by minimizing the negative impact of judicial and law enforcement procedures on children who are victims of abuse or sexual exploitation and by promoting the active participation of children and their families in cases involving abuse or sexual exploitation of children;

(7) address the needs of missing children and their families following the recovery of such children; (8) reduce the likelihood that individuals under 18 years of age will be abducted; and (9) establish or operate statewide clearinghouses to assist in recovering or locating missing children.

Formula Description: This program has no statutory formula or matching requirements.

Program Description: The program provides funds to designated Victims of Crime Act agencies, which administer a discretionary grant program and other assistance programs for crime victims, with amounts set aside from deposits into the Crime Victims Fund for demonstration projects and training and technical assistance services to eligible crime victim assistance programs. Funds go to the financial support of services to victims of federal crime by eligible crime victim assistance programs. The purpose of the demonstration and training and technical assistance grants is to improve the overall quality of services delivered to crime victims through the provision of training and technical assistance to providers. Of the amount available for training and technical assistance and services to victims of federal crimes, no less than 50% shall be used for demonstration programs and training and technical assistance, and not more than 50% for services to victims of federal crimes.

45.310 GRANTS TO STATES

Program Description: The Institute of Museum and Library Services Program consolidates federal library services programs designed to improve services, facilitate access to resources, and encourage resource sharing among all types of libraries. Grants are available to state library administrative agencies, which may spend the funds themselves or make them available to other agencies. Subgrants may be made available for cooperative agreements to public, academic, research, school, and special libraries in the state.

Formula Description: Grants to states are based on the minimum allotment set by Congress, plus an additional amount based on the most current published population estimates available the first day of the federal fiscal year from the Bureau of the Census. The federal share is 66% and the state matching requirement is 34%.

10.555 NATIONAL SCHOOL LUNCH PROGRAM

Program Description: The program provides funds to states through cash grants and food donations to provide a nutritious nonprofit lunch service for kids and to encourage the domestic consumption of nutritious agricultural commodities.

Formula Description: The program is funded on a performance basis. For every lunch served, the state receives a payment from funds made available under the School Lunch Act. The state receives a payment for each lunch served to a student eligible for free or reduced-price lunches. The amounts of such payments are determined by National Average Payment (NAP) factors. NAP factors are adjusted annually according to changes in the “Food Away From Home” component of the Consumer Price Index for All Urban Consumers.

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct child nutrition programs. State agencies that administer the distribution of USDA-donated commodities to schools, or child- or adult-care institutions, are also eligible for funding.

Formula Description: For the National School Lunch Program, School Breakfast Program, and Special Milk Program, states receive 1% of the total funds used in the state during the second preceding year, based on program and fiscal data. However, no state receives less than \$200,000 or the amount received in fiscal year FY 1981, whichever is larger. For the Child and Adult Care Food Program, a sliding grant is based on program and fiscal data. (The Secretary of Agriculture may provide additional funds to states for program improvement based on program and fiscal data.) Matching requirements are not applicable to this program.

93.767 CHILDREN'S HEALTH INSURANCE PROGRAM

Federal regulations require all Medicaid expansion SCHIP costs to be funded through the SCHIP appropriation rather than the Medicaid appropriation.

Program Description: The program provides grants to states to enable them to maintain and expand child health assistance to uninsured, low-income children and, as a state option, low-income pregnant women and legal immigrants. Assistance may be provided in one of three ways: (1) by obtaining qualified health insurance coverage; (2) by expanding eligibility for children under the state's Medicaid program; or (3) by reducing the number of children eligible for Medicaid, CHIP, and insurance affordability programs under the ACA who are not enrolled, and by improving retention of those who are already enrolled.

93.778 MEDICAL ASSISTANCE PROGRAM

The program (referred to as Medicaid) provides funds under two categories. Each is presented separately below to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

(1) MEDICAID VENDOR PAYMENTS

Program Description: Authorized under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to low-income individuals and others who may be eligible (pregnant women, infants, children, or the elderly), as defined by age and poverty criteria. Certain services must be provided by states for the categorically needy or the medically needy. Federal funds are awarded to a designated state Medicaid agency, and recipients must meet state requirements.

Formula Description: Funds are awarded based on a state’s Federal Medical Assistance Percentage, which ranges from 50% to 83%. The percentage is determined by a state’s medical expenditures and personal income relative to the national average for the three preceding years. There is a maintenance of effort requirement.

93.791 MONEY FOLLOWS THE PERSON REBALANCING DEMONSTRATION

Program Description: The program is designed to assist states in balancing their long-term care systems and help Medicaid enrollees transition from institutions to the community. Congress initially authorized up to \$1.75 billion in federal funds through fiscal year 2011. With the subsequent passage of the Patient Protection and Affordable Care Act in 2010, Section 2403 extended the program through September 30, 2016. An additional \$2.25 billion in federal funds was appropriated through fiscal year 2016. Any unused funds in 2016 can be used until 2020.

Formula Description: This program has no statutory formula. When receiving an award, the solicitation will receive reimbursement for home- and community-based services provided under the demonstration on a quarterly basis at Federal Medical Assistance Percentage (FMAP) rates.

Program Description: The program (referred to as WIC) provides grant funds to state health departments for further distribution to local public or nonprofit health facilities and organizations. The funds support supplemental food, nutrition information, and healthcare referrals to help safeguard the health of low-income pregnant, postpartum, and breastfeeding women and infants and children up to age five who are at nutritional risk. Funds support both program activities and state administration.

Formula Description: The distribution of funds is aimed primarily at maintaining participation levels. The formulas are based on the administrative costs, previous funding levels, inflation levels, and the proportion of persons earning less than 185% of the federal poverty level in each state. No matching funds are required, but some states contribute non-federal funds to support a larger WIC program.

93.558 TEMPORARY ASSISTANCE FOR NEEDY FAMILIES

Program Description: The program provides funds for states to provide cash grants, work opportunities, and other services to needy families with children so that the children can be cared for in their own homes. The goal is to promote job preparation, work, and marriage, thus reducing out-of-wedlock pregnancy and encouraging the formation of two-parent families. States have broad flexibility to use grant funds in any manner that meets the purposes of the program and in ways authorized under the previous assistance programs. States may also transfer a portion of their assistance grant funds to the Child Care and Development Block Grant and Social Services Block Grant programs. Not more than 15% of any grant may be spent on administrative costs, not including some computerization and information technology expenses.

Formula Description: Funds are allocated based mostly on previous allocations. A state match and maintenance of effort are required.

93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND

The program provides funds under two categories. Each of these categories is presented separately below in order to show the different funding formula for each part.

(1) CHILD CARE MANDATORY

Program Description: Along with related programs, the program makes grants to states to provide child care assistance to low-income families. It is designed to: (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education for parents; (4) help states provide child care to parents trying to gain independence from public assistance; (5) help states implement related programs by implementing the health, safety, licensing, training, and oversight standards; (6) improve child care and development of participating children; and (7) increase the number and percentage of low-income children in high-quality child care settings.

Formula Description: Mandatory funds are allocated based on the federal share of expenditures for the now-repealed Aid to Families With Dependent Children (AFDC)-linked child care programs in 1994, 1995, or the average of 1992-1994, whichever is greater.

10.500 COOPERATIVE EXTENSION SERVICE

Program Description: The program provides funds for several agriculture-related purposes, generally at land-grant institutions. These funds are used to support extension activities identified in the eligible institutions' approved 5-Year Plan of Work. Special-needs funds are allocated to a State Cooperative Extension Service to fulfill a purpose or overcome a condition peculiar to the state, as compared to the country as a whole, or for a purpose not normally a part of the continuing extension program. The purpose of this funding is to conduct agricultural extension work.

10.664 COOPERATIVE FORESTRY ASSISTANCE

Program Description: The program provides assistance for non-federal forest and rural lands to assist in advancing forest resources management and conservation; developing genetically improved tree seeds and seedling; producing and distributing tree seeds and seedlings; promoting afforestation and reforestation; encouraging active forest management; controlling insects and diseases affecting trees and forests; controlling rural fires; efficiently utilizing wood and wood residues/biomass, including recycling wood fiber; improving and maintaining fish and wildlife habitats; planning and implementing urban and community forestry programs; broadening existing programs on non-federal forest lands to meet the multiple use objectives of landowners; providing opportunities to landowners to protect ecologically valuable and threatened non-federal forest lands; and strengthening educational, technical, and financial assistance programs for owners of non-federal forest lands.

Formula Description: States negotiate funding levels and match contributions. Forest resource planning programs require a 20% state match. The amount of the grant is based on negotiated targets to be achieved.

Program Description: The program provides 25% of all funds raised from national forests to those states in which the forests are located. Funds are used to benefit public schools and roads in the counties in which the forests are located.

Formula Description: Funds are allocated in three ways: Title 1 (payments for states and counties containing federal land); Title 2 (special projects on federal land); and Title 3 (county funds). There are no matching requirements for the 25% payment to states or for the state payment. Acquisition management regulations and procedures applications to the Forest Services for purchases, contracts, grants, and agreements may impose matching requirements on Title II projects.

10.676 FOREST LEGACY PROGRAM

Program Description: The program provides grants to protect and conserve environmentally important forest areas threatened by conversion to nonforest uses through conservation easements or fee-simple purchase. The Forest Legacy Program is a voluntary private land conservation partnership between the Forest Service, participating states, land trusts, private landowners, and others. The program works with state partners and operators on a “willing seller and willing buyer” basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this program.

Formula Description: Federal contributions cannot exceed 75% of the total project costs, and at least 25% of a non-federal cost share is required. The non-federal cost share may consist of funds, donations, land or interests in land, in-kind contributions, direct costs, indirect costs, and others as determined by the Forest Service. Funds will be provided to states on a per-project basis, as determined by the annual appropriations. This program has no statutory formula.

10.680 FOREST HEALTH PROTECTION

Program Description: The program is designed to: (1) protect non-federal forest and tree resources from damaging forest insects, disease-causing agents, and invasive plants; (2) develop and improve forest health protection technologies; and (3) monitor the health of our nation’s forests. Part of the goal is to help support a base level of professional forest health expertise for non-federal forest land managers. A variety of monitoring, research, development, recommendation, and assistance activities are supported.

Formula Description: Grants are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, and other factors. Applicant matching is required and is usually about 50% of project costs, but federal funds will cover all costs if federal lands will be treated as part of a cooperative project or program. Matching rates may be adjusted in emergency or extraordinary situations.

11.407 INTERJURISDICTIONAL FISHERIES ACT OF 1986

Program Description: The program provides grants used for research and enforcement of inter-jurisdictional fishery resources, for the development of fishery management plans, and for the restoration of resources damaged by a natural resource disaster.

Formula Description: This program has no statutory formula. Apportionment to states is based on average value and volume of raw fish landed by domestic commercial fishers. No state that qualified for funding may receive less than ½ of 1% or more than 6% of funds appropriated in any fiscal year based on conditions of the Act. Federal funding is not to exceed 75% of approved project costs, except where a project supports an approved interstate or federal fishery management plan, in which case up to 90% federal funding may apply. The statistical factors used for fund allocation are (1) the three-year average of the value of commercial fish landed (according to “Fishery Statistics of the U.S.”), and (2) the volume of fish landed (according to “Fishery Statistics of the U.S.”). There are no matching requirements for commission grants.

Program Description: The program provides grants to help states and local governments prepare Statewide Comprehensive Outdoor Recreation Plans (SCORPs) and acquire and develop outdoor recreation areas and facilities for the general public, to meet current and future needs. Basic, rather than elaborate, facilities are favored. Grants are also available for SCORP revisions and updates.

Formula Description: Each year, states and territories receive an overall allocation of funds based on a statutory formula. Depending on the amount appropriated by Congress, a certain percentage is split equally among states. The remaining percentage is apportioned on the basis of need. The Land and Water Conservation Fund Act requires that the share of federal funds not exceed 50% of the total project cost. Generally, match must be derived from state, local, or private sources, but under certain conditions all or part of the project sponsor’s matching share may be from other federal assistance programs, such as community development block grants, when such use is allowable under the other programs sponsoring legislation. Otherwise, no other federal funds may be applied to the project cost, even if all matching requirements are met.

97.041 NATIONAL DAM SAFETY PROGRAM

Program Description: The program is designed to improve state dam safety programs and strive to achieve the key objective of national dam safety hazard reduction. The objective of hazard mitigation is to develop and maintain the capabilities necessary to reduce the loss of lives and property by lessening the impact of the failure of dams. This is accomplished by supporting state and U.S. territory governments in the development and maintenance of dam safety programs, enabling us to take precautions that ensure the safety of the dams, such as a development of regulatory authority for the design, construction, operation, and maintenance of dams; the undertaking of dam inspections; and the development of dam Emergency Action Plans (EAPs).

93.815 DOMESTIC EBOLA SUPPLEMENT TO THE EPIDEMIOLOGY AND LABORATORY CAPACITY FOR INFECTIOUS DISEASES (ELC)*

Program Description: The program provides funds to address priority domestic capacity-building around Ebola and other emerging and high-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC’s existing purpose, which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent, and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

93.913 GRANTS TO STATES FOR OPERATION OF STATE OFFICES OF RURAL HEALTH

Program Description: The program is designed to help states establish state offices of rural health to strengthen rural healthcare delivery systems by maintaining a focal point for rural health within each state. The program provides funding for an institutional framework that links small rural communities with state and federal resources to help develop long-term solutions to rural health problems. While a wide range of activities can be conducted to address unique state needs, each state office of rural health must: (1) establish an information clearinghouse for collecting and disseminating information; (2) coordinate state and federal rural health programs; and (3) provide technical assistance that will improve participation in state and federal programs.

Formula Description: This program has no statutory formula. States must match not less than \$3 for each \$1 of federal funds provided in the grant.

20.106 AIRPORT IMPROVEMENT PROGRAM

Program Description: The program provides funds to assist sponsors, owners, or operators of public-use airports in the development of a nationwide system of airports adequate to meet the needs of civil aeronautics. The purpose of the law includes the investment in transportation, environmental protection, and airport infrastructure that will support long-term economic benefits. Grants can be made for integrated airport system planning in a specific area, and airport master planning, construction, improvement, or repair of public-use airports. Funds are available for planning, land acquisition, site preparation, construction, alteration or repair, and terminal development. Funds may also be used for operational, safety, and required security equipment.

Formula Description: This program has no statutory formula, but funds are allocated based on the number and type of airports in each state; additional funds are available on a discretionary basis. The local match, between 10% and 25%, is determined by a variety of factors. Select pilot studies under the program may have a local match of 50%.

20.500 FEDERAL TRANSIT—CAPITAL INVESTMENT GRANTS

Program Description: The program assists in federal government’s primary financial resource for supporting transit capital projects that are locally planned, implemented, and operated. The majority of the projects are fixed-guideway transit projects, meaning they use or occupy a separate right-of-way, such as rails, catenaries, or exclusive bus lanes. This includes rapid rail, light rail, streetcar, commuter rail, and bus rapid transit (BRT). However, ferry projects and corridor-based BRT projects that do not use an exclusive bus lane but have other characteristics similar to rail transit service are also eligible. Note that, under prior authorizations, this section also included eligibility for the Bus and Bus Facilities and Fixed Guideway Modernization Programs. Although these programs are no longer under this section (repealed), a residual amount of funding allocated under previous authorizations may be obligated in grants using that authority.

Formula Description: Funds for the Capital Investment Grant program are allocated on a discretionary basis. By law, a grant may be made of up to 80% of net project cost.

20.505 METROPOLITAN TRANSPORTATION PLANNING AND STATE AND NON-METROPOLITAN PLANNING AND RESEARCH

Program Description: The program provides funding to assist the development of metropolitan and state transportation improvement programs, long-range transportation plans, and other technical studies in a program for a unified and officially coordinated Statewide Transportation System and Metropolitan Transportation System(s) within the state. As a result of this coordinated effort, the former CFDA # 20.515 has been discontinued. The CFDA incorporates both the Statewide Transportation System and the Metropolitan Transportation System into one CFDA number.

Formula Description: The matching requirements vary. Funds obligated for state and metropolitan planning are granted an 80% percent federal, 20% percent local, ratio. In addition, funds can be transferred from the Federal Highway Administration to form Consolidated Planning Grants, which permit a higher federal match for metropolitan funds.

20.509 FORMULA GRANTS FOR RURAL AREAS

Program Description: The program provides funding to improve, initiate, or continue public transportation service in nonurbanized areas, rural areas, and small cities under 50,000 in population, as well as to provide technical assistance for rural transportation providers. The Section 5311 program supports both the maintenance of existing public transportation services and the expansion of those services through the following program goals: enhancing access in rural areas to healthcare, shopping, education, employment, public services, and recreation; assisting in the maintenance, development, improvement, and use of public transportation systems in rural areas; encouraging and facilitating the most efficient use of all transportation funds used to provide passenger transportation in rural areas through the coordination of programs and services; providing financial assistance to help carry out national goals related to mobility for all, including seniors, individuals with disabilities, and low-income individuals; increasing availability of transportation options through investments in intercity bus services; assisting in the development and support of intercity bus transportation; encouraging mobility management, employment-related transportation alternatives, joint development practices, and transit-oriented development; and providing for the participation of private transportation providers in rural public transportation.

Formula Description: The program operates under the statutory formula prescribed in 49 U.S.C. 5335. The federal share is not to exceed 80% of the net project cost for capital projects. The federal share may be 90% for the cost of vehicle-related equipment attributable to compliance with the Americans with Disabilities Act and the Clean Air Act, or 85% for the cost of a vehicle that complies with these requirements. The federal share may also be 90% for projects or portions of projects related to bicycle facilities. The federal share may not exceed 50% of the net cost for operating assistance. Recipients may use up to 20% of the amounts apportioned under Section 5311 for ADA complementary paratransit at an 80% federal share if certain conditions are met. Under the Tribal Transit Program, there is no match for formula grants. Under the Tribal Transit Discretionary Program, there is a 10% match requirement.

20.513 ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES

Program Description: The program provides financial assistance in meeting the transportation needs of seniors and individuals with disabilities where public transportation services are unavailable, insufficient, or inappropriate. The Section 5310 program is designated to supplement the FTA’s other capital assistance programs by funding transportation projects for seniors and individuals with disabilities in all areas—urbanized, small urban, and rural. While the New Freedom Program was repealed, the goals of the New Freedom Program have been incorporated into the Section 5310 program, which funds alternative forms to transportation where traditional services are unavailable, inappropriate, or insufficient. Funds can be used for capital, planning, and operations.

Formula Description: This program has no statutory formula. Matching requirements are 80%, and Section 5310 funds may be used to finance capital and operating expenses. The federal share of eligible capital costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration, planning, and technical assistance, which may be funded at 100% federal share. Funds for the program are allocated among the states and large urbanized areas by a formula based on the population of elderly persons and persons with disabilities in each state according to the latest U.S. Census population figures.

20.521 NEW FREEDOM PROGRAM

Program Description: The program provides grants for the New Freedom Program (Section 5317) for new capital and operating projects aimed at reducing, beyond the requirements of the Americans with Disabilities Act of 1990, transportation barriers faced by individuals with disabilities to expand mobility through transportation, including transportation to and from jobs and employment support services.

Formula Description: This program has no statutory formula. New Freedom funds may be used to finance capital and operating expenses. The federal share of eligible capital and planning costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration,

planning, and technical assistance, which may be funded at 100% federal share. The local share of eligible capital and planning costs shall be no less than 20% of the net cost of the activity, and the local share for eligible operating costs shall be no less than 50% of the net operating costs.

20.528 RAIL FIXED GUIDEWAY PUBLIC TRANSPORTATION SYSTEM STATE SAFETY OVERSIGHT FORMULA GRANT PROGRAM

Program Description: The program provides improvement to public transportation safety by assisting states with the financing of safety oversight of rail fixed guideway public transportation systems in the jurisdiction of the state not regulated by the Federal Railroad Administration. A final rule was published on March 16, 2016 that will enhance the State Safety Oversight Program. The final rule will replace the current State Safety Oversight (SSO) rule, which will be rescinded no later than three years following the effective date of this rule.

Formula Description: Matching funds shall include in-kind contributions by an eligible state. The non-federal share may not be met by any federal funds, any funds received from a public transportation agency, or any revenues earned by a public transportation agency. Matching requirements are 80% federal and 20% state.

DEPARTMENT OF VETERANS' AFFAIRS

14.235 SUPPORTIVE HOUSING PROGRAM

Program Description: The program provides funds to promote the development of supportive housing and services that help homeless persons and families in the transition from homelessness and allow them to live as independently as possible. Funds may be used for transitional, supportive, or permanent housing; safe havens for homeless individuals with serious mental illness; and other support services. Specific uses are listed, including buying, rehabilitating, or building businesses; operating programs; or implementing a management information system.

Formula Description: This program has no statutory formula. Recipients must match grants for acquisition, rehabilitation, and new construction, with an equal amount of funds from other sources. Recipients must also provide a cash match for support services and operations. The Supportive Housing Program will pay no more than 80% of total support service costs, 75% of total operating costs, or 80% of total HMIS costs. Recipients have the responsibility to ensure that the funds that the recipient used to satisfy HUD's match requirements are not prohibited to be used for this purpose under any statute that may govern the matching funds.

16.593 RESIDENTIAL SUBSTANCE ABUSE TREATMENT FOR STATE PRISONERS

Program Description: The program provides grants to assist states and local governments in the development and implementation of substance use treatment programs in state, local, and tribal correctional and detention facilities. Funds are also available to create and maintain community reintegration for individuals after they are released from incarceration. The programs must last between 6 and 12 months; be provided in residential treatment facilities set apart from the general correctional population; focus on the substance abuse problems of the inmate; and develop the inmate’s social, behavioral, vocational, and cognitive skills to solve the substance abuse and related problems. Grant funds shall not be used for construction projects or land acquisitions.

Formula Description: Each participating state is allocated a base amount of 0.4% of the total funds available for the program. The remaining funds are allocated to each participating state in the ratio its prison population bears to the total prison population of all participating states. The most recent National Prisoner Statistics collected by the Bureau of Justice Statistics are used for making these allocations. The federal share of a grant-funded project may not exceed 75% of the total costs of the project. The 25% matching funds must be in the form of a cash match.

10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct child nutrition programs. State agencies that administer the distribution of USDA-donated commodities to schools, or child- or adult-care institutions, are also eligible for funding.

Formula Description: For the National School Lunch Program, School Breakfast Program, and Special Milk Program, states receive 1% of the total funds used in the state during the second preceding year, based on program and fiscal data. However, no state receives less than \$200,000 or the amount received in fiscal year FY 1981, whichever is larger. For the Child and Adult Care Food Program, a sliding grant is based on program and fiscal data. (The Secretary of Agriculture may provide additional funds to states for program improvement based on program and fiscal data.) Matching requirements are not applicable to this program.

84.010 TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES

Program Description: The program provides funds to help schools and local educational agencies meet the needs of children failing or most at risk of failing. Specific programs that may be supported depend on the types of programs schools offer. Federal funds must supplement, not supplant, local funds.

Formula Description: Basic grants are allocated based on each state’s per-pupil expenditure for education and the number of school-aged children from low-income families. Concentration grants are allocated for agencies having at least 6,500 children from low-income families or a poverty rate of at least 15%. In addition, funds appropriated in excess of the fiscal year 2001 level are to be allocated as targeted grants, which make higher payments to LEAs with higher percentages of poor children. The law also includes a separately authorized Education Finance Incentive Grants formula, which incorporates factors designed to measure a state’s commitment to provide sufficient education funding, as well as how equitably that funding is distributed across districts. Allocations from all four formulas are combined into a single award to eligible LEAs. Within LEAs, funds are targeted to schools with the greatest percentages of poor children. This program has no matching requirements.

84.011 MIGRANT EDUCATION—STATE GRANT PROGRAM

Program Description: The program is designed to help establish and improve programs that help migratory children meet the state’s performance standards that all children are expected to meet.

Formula Description: Starting in fiscal year 2017, funds will be allocated through a statutory formula based on each state’s per-pupil expenditure for education, its average number of eligible migratory children aged 3 through 21 residing within the state in the preceding 3 years, and the number of eligible migrant children ages 3 to 12 who received services in summer or intersession programs provided by the state during the previous year. Under a hold-harmless provision, states are assured at least 90% of their previous allocations for fiscal years 2017 through 2019. This program has no matching requirements.

84.027 SPECIAL EDUCATION—GRANTS TO STATES

Program Description: The program provides grants to assist states in providing special education and related services to all children with disabilities.

Formula Description: States receive a base amount equal to allocations in 1999. If the total program appropriation increases over the prior year, 85% on the remaining funds are allocated based on the number of children in the general population, between the ages of 3 through 21, in the age range for which the states guarantee a free appropriate public education (FAPE) to children with disabilities. Fifteen percent of the remaining funds are allocated based on the number of children living in poverty. This program has no matching requirements, but a maintenance of effort is required.

84.048 CAREER AND TECHNICAL EDUCATION—BASIC GRANTS TO STATES

Program Description: The program provides grants to develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs.

Formula Description: The funding formula is based on state per-capita income and population in three age groups (15-19, 20-24, and 25-65). The formula provides for a minimum state allocation, and a hold-harmless provision in the formula ensures that no state's share of the appropriation is less than its share of the fiscal year 1998 appropriation.

84.144 MIGRANT EDUCATION—COORDINATION PROGRAM

Program Description: The program provides financial incentives to State Educational Agencies (SEAs) to participate in consortia that provide high-quality project designs and services to improve the interstate or intrastate coordination of migrant education programs by addressing key needs of migratory children who have their education interrupted.

Formula Description: Consortium incentive grant awards are calculated on the basis of a two-tiered formula. SEAs whose MEP allocations are \$1 million or less will, in general, receive a grant award that is twice the amount of the award provided to SEAs whose MEP allocations are greater than \$1 million. Within each tier, awards will be of equal size. However, no SEA will receive an incentive grant award that exceeds the amount of its Title I, Part C, MEP program grant or \$250,000, whichever is less. This program has no matching requirements.

84.173 SPECIAL EDUCATION—PRESCHOOL GRANTS

Program Description: The program provides funding to help states provide special education and related services to children with disabilities aged 3 to 5, and at a state’s discretion, to 2-year-old children with disabilities who will reach age 3 during the school year.

Formula Description: In general, funds are distributed to eligible entities through a formula based on general population and poverty. Under the formula, each state is first allocated an amount equal to its fiscal year 1997 allocation. For any year in which the appropriation is greater than the prior year level, 85% of the funds above the fiscal year 1997 level are distributed based on each state’s relative percentage of the total number of kids aged 3 to 5 in the general population. The other 15% is distributed based on the relative percentage of children aged 3 to 5 who live in poverty. The statute also includes several minimum and maximum requirements when the amount available for distribution to states increases. This program has no matching requirements; however, there are non-supplant and excess cost requirements, and a maintenance of effort is required.

84.367 SUPPORTING EFFECTIVE INSTRUCTION STATE GRANTS

Program Description: The program provides grants to state educational agencies through local educational agencies in order to increase student academic achievement consistent with challenging state academic standards; improve the quality and effectiveness of teachers, principals, and other school leaders; and increase the number of leaders who are effective in improving and providing low-income and minority students greater access to effective leaders. This may be done through effective recruiting and retention techniques, and providing opportunities for professional development. State agencies for higher education are also eligible grantees.

Formula Description: In FY 2017, each state educational agency received 85.71% of the amount of funds that it received under the antecedent Eisenhower Professional Development State Grants and Class Size Reduction Programs in fiscal year 2001, totaling around \$2.1 billion. Remaining funds are then allocated to SEAs by formula, with 35% of remaining allocations based on states' relative shares of the population aged 5 to 17, and 65% based on states' relative shares of children from low-income families aged 5 to 17. Program Description: The program provides FY 2017 funds to support state, local, and tribal efforts to prevent terrorism and other catastrophic events, and to prepare the nation for the threats and hazards that pose the greatest risk to the security of the United States. It has three interconnected grant programs: (1) State Homeland Security Program, to support the implementation of state strategies; (2) Urban Areas Security Initiative, to help address the unique needs of high-threat, high-density urban areas; and (3) Operation Stonegarden. Together these grant programs fund a range of activities, including planning, organization, equipment purchase, training, exercises, and management and administration across all core capabilities and mission areas.

Formula Description: Funds are awarded based on three factors: minimum amounts as legislatively mandated; Department of Homeland Security’s risk methodology; and anticipated effectiveness based on the strength of the investment justification. This program has no matching requirements.

Program Description: The program helps states and interstate agencies establish and maintain adequate measures for the prevention and control of surface and groundwater pollution from both point and nonpoint sources. In FY 2016, states and tribes will continue to focus on fulfilling their basic responsibilities under the Clean Water Act based upon a shared understanding with the EPA of the environmental progress expected, and will identify program activities that will best support attaining targeted environmental improvements.

Formula Description: Funds are allocated based on the extent of pollution problems in states, using at least 6 components. Surface water areas, groundwater use, water quality impairment, point sources, nonpoint sources, and population of urbanized areas. The set-aside for Interstate Water Pollution Control Agencies is 2.6% of the total state monies appropriated under Section 106. Program Description: The program provides grants to capitalize states' drinking water revolving funds, which will provide a long-term source of financing for the costs of drinking water infrastructure. In FY 2017, the funding priorities established by the SDWA are requirements to protect public health and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. The program supports the agency's strategic goal of ensuring clean and safe water.

Formula Description: State allotments are based on the proportional share of total eligible needs reported for the most recent drinking water infrastructure needs survey. The minimum proportional share that each state can receive is 1% of total funds available to states.

BOARD OF HIGHER EDUCATION

84.367 SUPPORTING EFFECTIVE INSTRUCTION STATE GRANTS

Program Description: The program provides grants to state educational agencies through local educational agencies in order to increase student academic achievement consistent with challenging state academic standards; improve the quality and effectiveness of teachers, principals, and other school leaders; and increase the number of leaders who are effective in improving and providing low-income and minority students greater access to effective leaders. State agencies for higher education also are eligible grantees. This may be done through effective recruiting and retention techniques, and providing opportunities for professional development.

Formula Description: In FY 2017, each state educational agency receives 85.71% of the amount of funds that it received under the antecedent Eisenhower Professional Development State Grants and Class Size Reduction Programs in fiscal year 2001, totaling around \$2.1 billion. Remaining funds are then allocated to SEAs by formula, with 35% of remaining allocations

based on states' relative shares of the population aged 5 to 17, and 65% based on states' relative shares of children from low-income families aged 5 to 17. This program has no matching requirements.

HOUSING DEVELOPMENT AUTHORITY

14.103 INTEREST REDUCTION PAYMENTS—RENTAL AND COOPERATIVE HOUSING FOR LOWER-INCOME FAMILIES

Program Description: The program provides grants and interest reduction payments to help state and local housing finance authorities provide good-quality rental and cooperative housing for low- and moderate-income persons.

Formula Description: This program has no statutory matching requirements, but maintenance of effort is required.

14.239 HOME INVESTMENT PARTNERSHIPS PROGRAM

Program Description: The program is designed to expand the supply of affordable housing, particularly rental housing, for low-income Americans; to strengthen the abilities of state and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing; and extend and strengthen partnerships among all levels of government and the private sector, including for-profit and nonprofit organizations, in the production and operation of affordable housing. Up to 10% may be used for administrative costs.

Formula Description: Funding is based on several variables that show the need for an increased supply of affordable housing for low- and very low-income families. The matching requirement is 25%. Jurisdictions in fiscal distress receive full or partial 50% relief from this requirement.

STUDENT ASSISTANCE COMMISSION

16.816 JOHN R. JUSTICE PROSECUTORS AND DEFENDERS INCENTIVE ACT

Program Description: The program provides funds to help make repayments, on behalf of eligible beneficiaries, of loan obligations to institutions holding eligible beneficiary loans. Direct payment of grant funds to beneficiaries is strictly prohibited. Loan payments made are a supplemental to, not a substitute for, the eligible beneficiary's loan obligations. Grant funds may be applied as repayment of eligible loans only. Priority consideration will be given to those eligible beneficiaries who have the least ability to repay their student loans, except that a fair allocation of repayment benefits among prosecutors and public defenders, and among employing entities nationwide, will be determined.

Formula Description: This program has no statutory formula or matching requirements.

84.334 GAINING EARLY AWARENESS AND READINESS FOR UNDERGRADUATE PROGRAMS*

Program Description: The program provides 6- or 7-year grants to states and partnerships to provide support and maintain a commitment to eligible low-income students, including students with disabilities, to help students obtain a secondary school diploma; and to prepare for or succeed in postsecondary education. GEAR UP has two major service components. All projects provide a comprehensive set of early intervention services including mentoring, tutoring, academic and career counseling, services to increase parental involvement, and other college preparation activities, like exposure to college campuses, and financial aid information and assistance. Some projects provide college scholarships to participating students.

Formula Description: This program has no statutory formula. The statute requires a cash or in-kind match from non-federal sources.
